

# Celebrating 35 Years

## Helping People Help Themselves

## Be a part of the GMPI Jobs Initiative

Since 1973, Greater Marlboro Programs, Inc. (GMPI) has been actively making a difference in the lives of hundreds of developmentally disabled area residents and their families. Our broad range of residential, transportation, recreation and support services promote the personal growth, dignity and acceptance of people with disabilities.

### A New Mission: The GMPI Jobs Initiative

We are celebrating our 35th anniversary by further expanding our efforts to ensure that developmentally disabled adults are productive, participating members of the community. The **GMPI Jobs Initiative** is an ambitious program designed to help our clients realize a major life goal: to contribute to society and their own support by working for area businesses.

### We Need Your Help to Succeed.

GMPI is actively seeking business partners willing to employ developmentally disabled people. Our clients consistently receive high marks from employers for attendance, loyalty and work quality. On-going job support helps prepare our clients for life in the workforce, and is always available as needed to ensure continued success — at absolutely no cost to you.
